WANTED Technologies Launches New Sales Prospecting Tool to Identify Companies with Spikes in Hiring Demand

Gazelles™ Report Links to WANTED Analytics to track the most active employers in the market

New York, NY (May 27, 2009) - WANTED Technologies (TSX-V: WAN), the leading source of insight and analysis based on hiring demand, today announced the launch of the WANTED *Gazelles™* report, a weekly alert of companies that show a dramatic increase in online job ad postings beyond their normal range of hiring activity. The *Gazelles* report is a time-sensitive list of companies within a defined market that constitute the very highest probability buyers of recruitment advertising and recruiting services in any given week.

The subscription-based *Gazelles* report includes a national, regional, MSA or occupation-based weekly alert, plus a license to access WANTED *Analytics™*, the industry-leading online dashboard for hiring demand intelligence. Links within the report to Analytics allow for instant verification of hiring activity and access to any contact information found in the original online ads.

“We think that the WANTED *Gazelles* reports are a uniquely useful new tool for media sales organizations and recruiting/staffing firms,” said Bruce Murray, CEO of WANTED. “Spikes in hiring demand are typically ‘event driven,’ and these alerts will help our clients identify and qualify potential new projects in a very time-sensitive way and shorten their sales cycles.”

WANTED is offering a complimentary trial *Gazelles* report to all attendees at its upcoming webinar series beginning June 2nd. Session dates and a registration link may be found at http://www.wantedtech.com/about_us/events.php.

About WANTED Technologies Corporation

WANTED is the leading source of insight and analysis based on hiring demand. Clients in the media, HR/staffing, financial services and government sectors use WANTED’s online data and SaaS-based analytical solutions to identify economic trends, analyze competitive and market activities and prioritize sales opportunities.

WANTED is also the exclusive data provider for The Conference Board’s Help-Wanted OnLine Data Series™, the monthly economic indicator of hiring demand in the United States.

WANTED Technologies (TSX-V:WAN) was founded in 1999. The company's headquarters are in Quebec City, Canada, and it maintains a US-based subsidiary with primary offices in New York City. The company began collecting detailed hiring demand data in October 2002, and currently maintains a database of hundreds of millions of unique job listings. Visit www.wantedtech.com for more information about how WANTED helps organizations make better decisions and improve sales results.
