WANTED Technologies Predicts Decline of 440,000 Jobs in Upcoming July '09 BLS Employment Report

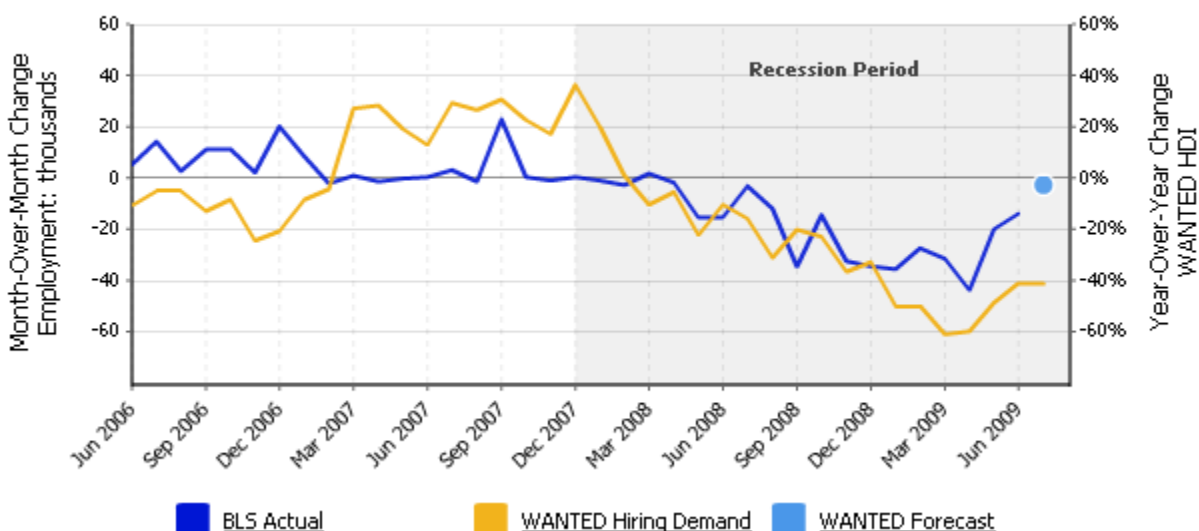

New York, NY (August 4, 2009) - WANTED Technologies (TSX-V: WAN), the leading source of insight and analysis based on hiring demand, is forecasting that the Bureau of Labor Statistics (BLS) will announce a loss of 440,000 jobs in its upcoming report on US non-farm payrolls for July 2009.

Weakening Hiring Demand and an increase in new Unemployment Insurance Claims on a seasonally adjusted basis shifted WANTED's forecast toward increased losses for July. Hiring Demand has decreased by 3% since last month on a seasonally adjusted basis. Last month, Hiring Demand was up 2%, which drove an optimistic forecast. Although Hiring Demand has stabilized, it has not picked up enough to generate gains in employment.

WANTED's forecasting model incorporates overall Hiring Demand based in part on a weekly measurement of the number of job ads placed with online job boards. The weekly Hiring Demand data that WANTED collects from online job boards tracks employment levels at the industry and occupational level. WANTED is predicting a loss of 2,700 jobs in Transportation and Warehousing; a loss of 14,400 jobs in Finance and Insurance; and a gain of 28,600 jobs in Health Care. WANTED's forecasts and analysis are available as part of its subscription-based *Hiring Demand Indicators™* (HDI) service. The online service offers timely Hiring Demand data for economists and researchers monitoring the recent stimulus package and the economic recovery. The HDI service includes: a license to access WANTED Analytics™, the industry-leading online dashboard for Hiring Demand intelligence; and the analysis and discussion in WANTED's blog, "All About Hiring Demand".

WANTED also supplies its data to The Conference Board, which relies on it to produce its monthly Help-Wanted OnLine Data Series™.

About WANTED Technologies Corporation

WANTED (www.wantedtech.com) is the leading source of insight and analysis based on Hiring Demand. Clients in the media, HR/staffing, financial services and government sectors use WANTED's online data and SaaS-based analytical solutions to identify economic trends, analyze competitive and market activities and prioritize sales opportunities.

WANTED is also the exclusive data provider for The Conference Board's Help-Wanted OnLine Data Series™, the monthly economic indicator of Hiring Demand in the United States.

WANTED Technologies (TSX-V:WAN) was founded in 1999. The company's headquarters are in Quebec City, Canada, and it maintains a US-based subsidiary with primary offices in New York City. The company began collecting detailed Hiring Demand data in October 2002, and currently maintains a database of hundreds of millions of unique job listings. Visit www.wantedtech.com for more information about how WANTED helps organizations make better decisions and improve sales results.
