WANTED Technologies Predicts Gain of 220,000 Jobs in Upcoming April '10 BLS Employment Report

New York, NY (May 4, 2010) - WANTED Technologies (TSX-V: WAN), the leading source of real-time employment market information, is forecasting that the Bureau of Labor Statistics (BLS) will announce a gain of 220,000 jobs in its upcoming report on US non-farm payrolls for April 2010.

The forecast for April of a gain of 220,000 jobs is a relative improvement over the March gain of 162,000 jobs. Since March, Unemployment Insurance claims have decreased slightly. Also, WANTED's Hiring Demand indicators continue to show increases in new job ads at a steady pace, indicating continued employment gains. WANTED's forecast for April includes a gain of 66,000 US Census workers.

WANTED's forecasting model incorporates overall Hiring Demand based in part on a weekly measurement of the number of job ads placed with online job boards. The weekly Hiring Demand data that WANTED collects from online job boards tracks employment levels at the industry and

occupational level. (More detailed analysis is available at <http://www.wantedanalytics.com/insight/>.)

WANTED's forecasts and analysis are available as part of its subscription-based *Hiring Demand Indicators*[™] (HDI) service. The online service offers timely Hiring Demand data for economists and researchers monitoring the recent stimulus package and the economic recovery. The HDI service includes: a license to access WANTED *Analytics*[™] *Apps*, a suite of applications that provide real-time employment market intelligence; and the analysis and discussion in WANTED's blog, "Jobs. Trends. *Insight*."

WANTED also supplies its data to The Conference Board, which relies on it to produce its monthly Help-Wanted OnLine Data Series[™].

About WANTED Technologies Corporation

WANTED is the leading source of real-time employment market information. The company provides insight and intelligence via its family of WANTED *Analytics*[™] *Apps* found at www.wantedanalytics.com. Clients in the media, HR/staffing and government sectors use WANTED *Analytics* *Apps* to prioritize sales opportunities, identify economic trends, and analyze competitive market conditions.

WANTED is also the exclusive data provider for The Conference Board's Help-Wanted OnLine Data Series[™], the monthly economic indicator of Hiring Demand in the United States.

WANTED Technologies (TSX-V:WAN) was founded in 1999. The company's headquarters are in Quebec City, Canada, and it maintains a US-based subsidiary with primary offices in New York City. The company began collecting detailed Hiring Demand data in October 2002, and currently maintains a database of more than 500 million unique job listings.
